5 April 1979

Dear Dick,

STAT I wanted to note with special thanks your recent TDY I know the effort you made in performing your duties contributed significantly to the mission of the Station, NFAC, and the Community as a whole. I am sure that the Station appreciated your presence during a difficult time.

We come to expect first-class performances from our employees, even under trying circumstances, and while you were simply doing your job and upholding that tradition, I wanted you to know that we appreciated your work.

Many thanks.

Yours,

STAT STANSFIELD TURNER
